

Without compromise.

Weighing in at a lightweight 2.6kg the brushed aluminum alloy case, backlit keyboard and beautiful 4K (3840x2160) display are backed by the next generation of the world's most powerful NVIDIA GeForce GTX 980M or 970M graphics chipset. Like all Eurocoms, the M5 Pro is fully customizable with your choice of i7 Intel processors, up to 32GB of ram and 4TB of storage with 2 HDD and 2 SSD expansion slots.

With a full suite of I/O ports including USB3, a mini display port, Memory card reader and the latest M.2 slots the compromises of the past have been erased. No longer will you have to make the decision between a laptop that has the raw horsepower to game and do your work, and a laptop you can travel with – the M5 Pro is engineered to do it all and to look great while doing it.
