

INNOVATIVE FEATURES

Desktop CPU and GPU. Unlocked Supercomputer.

The Sky X7W is powered by Intel's i9-9900KS 8core/16thread processor and features NVIDIA's Quadro P series or GeForce RTX 20 series GPU. It comes with a standard 17.3-inch, up to 128GB of memory, with space for up to 24TB of storage with 4 physical drives. With a backlit, 4K capable display and the ability to support up to 4 monitors, you're getting maximum visual bang for your buck. Built-in ONKYO speakers and subwoofer with a Sound Blaster X Pro-Gaming 360° sound system, and a backlit colour-customizable keyboard, make the Sky X7W perfect for everything from Game Design to game play. But don't worry. The Sky X7W isn't just for gamers. With available Fingerprint and Kensington Lock security, TPM 2.0, and BIOS Disk encryption, whatever project you're working on will remain for your eyes only.
