

INNOVATIVE FEATURES

Sky is the limit.

The Sky DLX7 is Eurocom's newest innovation, our first laptop ever to jam both a desktop CPU and graphics processor inside - hardware otherwise only found in a tower on a stationary system - while amazingly, maintaining cool temperatures & stable performance wherever you go. With its modular design and plethora of options for upgrades, now or in the future, the DLX7 is leading the way to serve the long-term demands of designers & engineers worldwide.
