

Install the A12 UNLOCKED BIOS first
uninstall ALL [nvidia](#) drivers.

Remove the audio drivers

Shutdown

Removed old card

installed new card

Turn on machine

F2

Disable the onboard audio

Turn off IGD

PEG for primary display

advanced settings for video - always enable PEG and made sure this one setting that allowed more time
for PEG to be detected was enabled

Save & Restart

Install the drivers.

After the drivers are installed and confirmed working, re-enable audio in bios and install audio drivers
